

local and State community, the cultural composition of their State, their resources and funding sources, and their institutional history. These factors converge to create a network of unique and distinct programs, bound together by common mandates but enriched by diverse composition.

Interdisciplinary Training means the use of individuals from different professional specialties for UAP training and service delivery.

Lifespan Approach means that UAP activities address the needs of individuals with disabilities who are of all ages.

Mandated Core Functions means the UAP must perform:

- (1) Interdisciplinary preservice preparation;
- (2) Community service activities (community training and technical assistance); and
- (3) Activities related to dissemination of information and research findings.

Program Criteria means a statement of the Department's expectation regarding the direction and desired outcome of the University Affiliated Program's operation.

Research and evaluation means that the UAP refines its activities on the basis of evaluation results. As members of the university community, involvement in program-relevant research and development of new knowledge are important components of UAPs.

State-of-the-art means that UAP activities are of high quality (using the latest technology), worthy of replication (consistent with available resources), and systemically evaluated.

§ 1388.2 Program criteria—purpose.

The program criteria will be used to assess the quality of the University Affiliated Programs (UAP). The overall purpose of the program criteria is to assure the promotion of independence, productivity, integration and inclusion of individuals with developmental disabilities. Compliance with the program criteria is a prerequisite for a UAP to receive the minimum funding level of a UAP. However, compliance with the program criteria does not, by itself, assure funding. The Program Criteria are one part of the Quality Enhancement

System (QES), and provide a structure for self-assessment and peer review of each UAP. (The QES is a holistic approach to enable persons with developmental disabilities and their families to achieve maximum potential. All UAPs use the QES.)

§ 1388.3 Program criteria—mission.

(a) Introduction to mission: The UAP is guided by values of independence, productivity, integration and inclusion of individuals with developmental disabilities and their families. The purpose and scope of the activities must be consistent with the Act as amended and include the provision of training, service, research and evaluation, technical assistance and dissemination of information in a culturally competent manner, including the meaningful participation of individuals from diverse racial and ethnic backgrounds. (The concept of "diverse network" as defined in § 1388.1 of this part applies to paragraphs (b), (f), (g), and (h) of this section.)

(b) The UAP must develop a written mission statement that reflects its values and promotes the goals of the university in which it is located, including training, the development of new knowledge and service. The UAP's goals, objectives and activities must be consistent with the mission statement.

(c) The UAP's mission and programs must reflect a life span approach, incorporate an interdisciplinary approach and include the active participation of individuals with developmental disabilities and their families.

(d) The UAP programs must address the needs of individuals with developmental disabilities, including individuals with developmental disabilities who are unserved or underserved, in institutions, and on waiting lists.

(e) The UAP's mission must reflect a commitment to culturally competent attitudes and practices, which are in response to local culture and needs.

(f) The UAP's mission must reflect its unique role as a bridge between university programs, individuals with developmental disabilities and their families, service agencies and the larger community.

(g) The UAP's goals, objectives, and activities must be consistent with the
